EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Scaturro on 4/11/2005.

The application has been amended as follows:

Claim 17, line 9: after "terminal", the following language has been deleted: "[NOTE TO EXAMINER: I don't know if I am reading this clause wrong but it doesn't make sense to me, namely, "subsequent to a reception of the first message", shouldn't it read, "subsequent to the transmission of the first message"]"

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 9, 17, 25, 29, 33, 37, the prior art fails to teach that the terminal is operable to transmit an acknowledge command to said radio network controller, said acknowledge command for preventing the radio network controller from re-transmitting the first message after a specified period of time; and that the radio network controller is operable to transmit a third message to said wireless terminal immediately upon reception of the second message by said radio network controller, the third message being indicative of a deciphering by said radio network controller of the second message with the new cipher key wherein the third

Art Unit: 2681

message is coded with the new cipher key as an indication that said radio network controller deciphered the second message with the new cipher key,

in combination with all other limitations which are a wireless network, comprising: a radio network controller; and a wireless terminal, wherein said radio network controller is operable to transmit a first message to said wireless terminal, the first message being indicative of an initiation of a cipher key change; wherein said wireless terminal is operable to transmit a second message to said radio network controller subsequent to a reception of the first message by said wireless terminal, the second message being coded with a new cipher key as an acknowledgement of the cipher key change by said wireless terminal.

Claims 10, 13-16 depend on claim 9. Therefore, they are allowable.

Claims 18, 21-24 depend on claim 17. Therefore, they are allowable.

Claims 27 depends on claim 25. Therefore, it is allowable.

Claims 31-32 depend on claim 29. Therefore, they are allowable.

Claims 35-36 depend on claim 33. Therefore, they are allowable.

Claims 39-40 depend on claim 37. Therefore, they are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
